INDONESIA.

Indonesian Government resumes normal imports of Cotton Textiles and Yarn

The temporary ban imposed in September 1956, on the import of cotton textiles and yarn from countries other than those which entered into agreements with Indonesia for the supply of textiles/yarn against raw cotton under the American Surplus Agricultural Commodities agreement, has been lifted by the Bureau of Foreign Exchange for Trade (BDP).

From 12th Novermber 1956 the B.D.P. will again receive applications from importers for the import of cotton textiles and yarn as usual outside the import of textiles against P.L. 480 cotton Indian exporters of cotton textiles/ yarn are, therefore, requested to contact their customers in Indonesia with their offers without delay.

The opening of the normal trade in cotton textiles/yarn will not include those countries which undertook to supply textiles against P.L. 480 cotton (the U.K., West Germany, Belgium and Japan) except Hong Kong, which has received import licences for the full quota of textiles to be supplied under the Surplus Agreement.

While India need not face the competition of Japan primarily in this market for a temporary period, nevertheless Indian exporters are to be alert in offering quality goods at competitive prices as the competition from the Peoples' Republic of China, Hong Kong and Eastern countries, like Poland and Czechoslovakia, is expected to be severe.

AUSTRALIA

Instructions to the Exporters of the Plants to the foreign countries.

A case has been brought to the notice of the Government of India wherein an Indan exporter supplied Orchid of

quality inferior to that contracted with a party in Australia. Such behaviour naturally brings discredit to Indian Trade and also makes attempts for promoting export difficult. It is accordingly stressed that in the interest of India's foreign trade, traders should keep to their contract and supply goods of the contracted quality.
